doggydocks®

Floating Dog Water Ramp

WHY CHOOSE doggydocks®

Unlike inflatable dog rafts or metal ladders, **doggydocks®** is designed to eliminate risky climbs, awkward jumps, or paw injuries. Your dog simply swims up and walks out safe, easy, and stress-free.

Whether you're on a floating dock, fixed pier, pontoon, ski boat, cruiser, or poolside, **doggydocks®** adapts to your environment. Our custom **Swivel Cleat** mounting kits and accessories make it easy to install almost anywhere.

doggydocks® makes getting your dog out of the water safer, faster, and more enjoyable—for both of you.

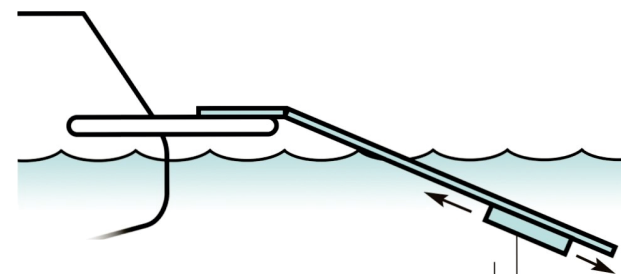

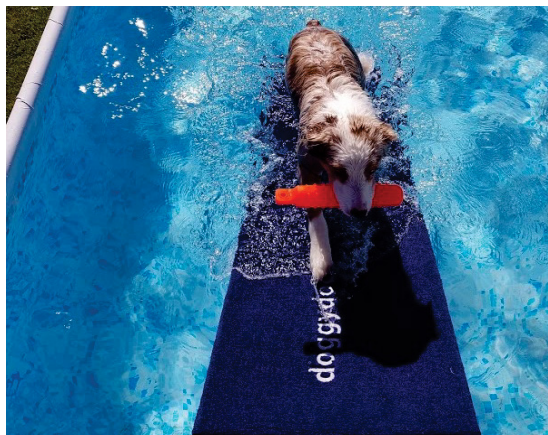

WHAT MAKES doggydocks® DIFFERENT?

- **Self-Adjusting Floating Design** Follows the water level so your dog can enter and exit naturally, simulating a shoreline.
- **SnapBag™ Adjustable Flotation System** Easily adjusts to your dog's weight and the platform height for stability and ease of use.
- **Marine-Grade Materials** Lightweight, durable, and weather-resistant construction. Made to withstand years of fun.
- **Comfort & Traction** Carpeted surface gives your dog a secure, non-slip grip—even when wet.
- **All Sizes, All Breeds** Perfect for big dogs, small dogs, and every swimmer in between.

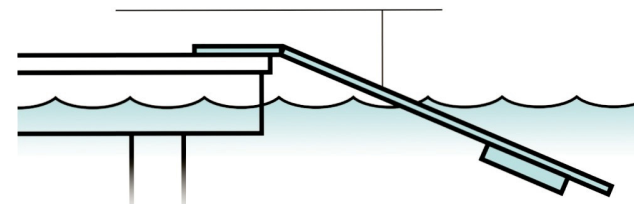

Make the water safer for your dog to play and exercise—and more relaxing for you, with **doggydocks®**, by PupGear Pet Products.

doggydocks®

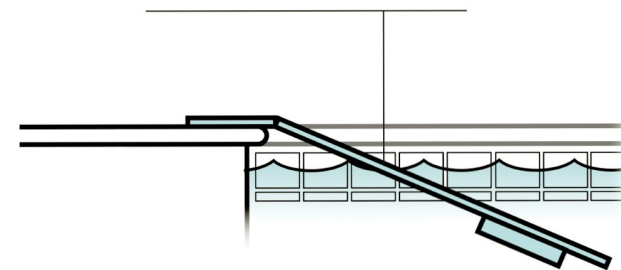

Ideal for Boats, Docks and Swimming Pools

SnapBag™ flotation system allows custom adjustments based on your dog's weight and your dock or platform height.

Marine-Grade Materials Lightweight, durable, and weather-resistant construction. Made to withstand years of fun.

Dogs quickly adapt because doggydocks® simulate the slope of a shoreline.
